Profile

Creative and detail-oriented **Graphic Designer** with a passion for visual storytelling and impactful design. Experienced in creating **UI/UX designs, social media graphics, posters, flyers, brochures, and website layouts**. Skilled at turning ideas into engaging visuals that align with brand identity and marketing goals. Focused on delivering high-quality, user-centered designs with attention to detail, consistency, and creativity.

Professional Experience

SYSTEMS Limited-INTERN

Cloud App Dev & Maintenance Department

Jul 2024 – Aug 2024

Lahore, Pakistan

- Designed a **modern, responsive UI/UX** for an e-commerce website using **Figma and Adobe XD**.
- Created **product pages, cart flows, and login/signup** with user-centered design principles.
- Collaborated with developers to ensure **backend integration** matched the visual design.

Codater Society

Graphic Designer

Dec 2021 – Present

- Designed **posters, brochures, and social media graphics** for **local clients** and **events**.
- Created **banners, certificates, and presentations** for **university projects**.
- Crafted **UI/UX designs** for **apps and websites** using **Figma, Photoshop, and Canva**.

GrowIntern

Graphic Designer

Aug 2023 – Dec 2023

- Created **responsive UI designs** and **prototypes** using **Figma and Adobe XD**.

Academic Projects

Final Year Project: Green Guardian

Designed a complete **mobile app interface in Figma** for a rice leaf disease detection application. Created a user-friendly and intuitive flow including **splash screen, login, sign-up, home dashboard, image upload/scan screen, diagnosis result page, and recommendation interface**. Ensured the UI was clean, accessible, and tailored for ease of use by farmers and agricultural workers. Focused on layout consistency, readability, and smooth user journey.

Ecommerce Website

Designed clean and intuitive **UI/UX** for a responsive **e-commerce website** using **Figma**, covering key flows like **homepage, product listings, cart, checkout, login/signup, and admin panel**. Created high-fidelity mockups and prototypes with a focus on **user experience, accessibility, and design consistency** across devices. Collaborated closely with developers to ensure smooth handoff and pixel-perfect implementation.
